HONG KONG Libreria Bookcase

Designed by Maurizio Manzoni

Hong Kong, originale libreria modulare, autoportante, sia a parete sia centro stanza.

Legno e alluminio collaborano attivamente alla continuità della struttura componibile dove il singolo modulo diventa cellula costituente amalgamata nella totalità dell'insieme. La libreria Hong Kong può fungere anche da parete divisoria. L'insieme delle fessure disegnate nello schienale crea giochi di luce che delineano e esaltano la struttura.

Hong Kong, la base e i fianchi portanti sono realizzati in legno multistrato impiallacciato frassino. Ogni modulo può essere personalizzato da inserti in legno, usati sia come mensola che come decoro, oppure da cubi contenitori con anta a ribalta, da posizionare a piacimento, rendendolo un'opera sempre unica.

Le soluzioni composite possono essere studiate insieme all'azienda.

Dimensioni
Dimensions

libreria bookcase

mensola - shelf

cm 59-46-38-27 x 35 x 2 h

cubo - cube

cm 27 x 27 x 27 h

fianco - side

cm 8 x 35 x 270-180-90 h

base - base

cm 556-376-196 x 50 x 8 h

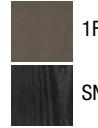

Hong Kong, an original modular bookcase, freestanding, ideal both against a wall or at the centre of the room.

Wood and aluminum both contribute to the continuity of the modular structure, where every single module becomes a constituent cell, amalgamated into the totality of the structure. The Hong Kong bookcase can also act as a partition wall. The slots designed in the backrest create plays of light that outline and enhance the structure.

Hong Kong: the base and load-bearing sides are made of veneered ash plywood. Each module can be customized with wooden inserts, which can be used both as shelves and as a decorations, or by cubic containers with flap doors, to be positioned at will, making it a unique work. Various compositional solutions can be arranged together with the customer.
